

Two Weeks Summer Internship France by Bansal Group of Institutes

Bansal Group of Institutes is pleased to organize 14 days visit to France starting from 4th June 2017 to 17th June 2017 for its engineering students. The visit will consist of:

Technical Program

- Group brainstorming on the concept of sustainable development: definition, issues and challenges
- Role-play on water governance and planning: how to deal with the various actors of a territory? Presentation of the Regional Hydraulic Network
- Presentation of two hydroelectric projects in Saint-Thibéry and Le Vigan: the development of small hydropower with a logic of environment integration
- Discovery of an experimental Center of eco-housing in Cantercel
- Visit of a wind farm, a high-potential for future sustainable development
- Visit of a waste management station and presentation of the process of methanation.

Cultural Program

- Initiation to French language and culture
- One full day Touristic excursion to Nîmes and le Pont du Gard
- Cultural activities (cheese tasting, movie, French songs, etc.).

Cost

The cost for this program is Rs 250000 (Rupees two lacs fifty thousands only). This includes:

- Airport personalized welcome
- 2 nights in Paris + tourism
- Accommodation with host families - Half-board during the week / full board on week end – and insurances ** Price 2017.
- Lunches during the week and personal expenses are not included.
